

CNC ALUMINIUM BENDING MACHINE

Specifications >>>>

Model No	ALUMINIUM BENDING MACHINE
Working Principle	Auto Feed , Auto Slot , Auto Bend
Applied Material	Aluminum strip , Aluminum edge , Aluminum profile
Material Height	120 mm
Material Thickness	0.4 - 1.2 mm
Slot Degree	45-135 Degree
Slot Type	Double Side Swing Cutting
Voltage	220 V
Control Type	Computer Motion Control Card
Total Power	1500 W
File Format	DXF , PLT (Coraldraw)

Specifications are liable to change without prior notice.
